Subject: Recent email

Nola and Chy – A couple of thoughts occurred to me right after I sent the previous email. Rather than sending a 2nd email to everyone, I was hoping it would be OK to just communicate with you and you could pass the word along to the rest of your group as appropriate.

1. I should have suggested a timeframe for providing EPA comments on the letters and Notices because once we finalize the wording, Jennifer Chergo will send the letters and Notices to one of our contractors for translation into Spanish which could take a couple of weeks. Would it be possible to provide us your comments by May 6th? Please let me know if this date will work for you.
2. One other thought I had was in regard to the suggestion to send the letters and Notices in Spanish at the same time as when we mailed the letters in English. Would it be possible during your outreach efforts to ask the property owners if they prefer to receive our mailings in Spanish – I don't know if it is appropriate to ask this but it may help us to minimize the volume of a mailing if Spanish is not necessary.

Let Jennifer Chergo and I know if you have any thoughts on either of these items. Thank you again for your help in reaching the property owners.

Paula Schmittdiel
